COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY MARCH 1, 1911.

NUMBER 17

New Church Building.

At a meeting of the male members of the Columbia Baptist Church last Sunday afternoon, it was decided that the Church erect a new house for worship, and all the necessary committees were selected and requested to report on Wednesday evening March the 8th. It is the intention to build a brick edifice with modern conveniences, on the same site the present church stands, and while plans have already been submitted by Rev. Butler Arvin, yet the committee will submit this proposition to a skilled architect and within the time above mentioned, hope to be able to furnish a drawing that will have the approval of all interested. The drawing submitted by Rev. Arvin appeals strongly to all who have seen it, and will doubtless meet the approval of the architect with some small changes. There was a good part of the money subscribed last Sunday, and as the committee has so short a time in which to secure the remainder, we urge every member or every person who desires to aid in this glorious work to come forward at the earliest hour possible and subscribe. You save the committee much trouble by calling on some member at once. Every member should give and do it at once.

Acquitted of Murder Charge.

Jo Zach Hays, of color, charged with assassinating Theodore Burriss, also colored, in Jamestown, some time last Summer was tried in the Russell circuit court last Friday and Saturday. On account of a former trial seventy-five men from Adair county were summoned from which to select a jury. A jury composed of the following gentlemen was completed at the noon hour Friday and the taking of testimony commenced in the afternoon. There were twenty or thirty witnesses, and the argument did not commence until late in the afternoon Saturday, the jury getting the case about 9 o'clock Saturday night. There was much speculation as to the verdict, but all doubts were dispelled when the jury filed into the court room, about 12 o'clock, and rendered a verdict of acquittal. The jury was composed of the following gentlemen who reside in Adair county:

Evan Akin, H. C. Feese, Thos. Holaday, John Blair, John B. Coffey, Allen Walker, Marvin Young, J. B. Grant, H. B. Garnett, Virgil Hurt, Frank Wheeler, F. P. Bryant.

The defense was represented by Mr. Rollin Hurt, of Columbia, Mr. N. H. W. Aaron, Indianapolis, and Mr. J. H. Stone, of the Jamestown bar. The State was represented by A. A. Huddleston, Commonwealth's Attorney, and J. N. Meadows County Attorney.

The Proposition Should Carry.

The Graded School proposition is at fever heat in the Russell Springs district, Russell county, but the advocates of the measure feel sure that they will win. The election comes off next Saturday, both sides working like beavers. Hon. J. F. Montgomery, of this place, who was called to Jamestown on legal business, last week, accepted an invitation to speak at the Springs Thursday night in favor of the School. A large crowd was out to hear him. He gave many potent reasons why the proposition should carry, and there is scarcely a doubt but the school side will win. Wherever a Graded School has been established it has received the unqualified praise of those who attend and the endorsement of parents. The Graded School, if established, will be the greatest enterprise that ever struck Russell Springs. The population of the town will rapidly grow and all classes of business greatly enhance. To the credit of the business men of the town, be it said, they are almost unanimous for it. Voters of Russell Springs, establish the school. It means better educational facilities, it means the building of more residences and it will enhance the value of those already erected.

Notice.

On Monday March 6th, county court day at Columbia, you can see the noted Duke of Adair, V. M. Epperson's high bred saddle and harness stallion. Duke is noted for his size, style, form and action, and as a breeder he has no equal in this county.

W. A. Coffey, Master Com. A. C. C.

Dr. Wm. Voils, who was one hundred and three years old the 2nd day of January, and who makes his home with his grandson, Mr. J. W. Voils, Russell Springs, is now visiting in the Fairplay country, Adair county. He is in perfect health and frequently walks eight and ten miles. In passing from Russell county to Adair county, some one of his great grandsons start with him, riding behind on a horse. When the half way station is reached, the boy returns with the horse and the old gentleman walks to his destination.

The Adair County Medical Society will meet in Columbia, on Friday the 10th day of March 1911 (Second Friday) at 10 o'clock. We hope to make this a memorial occasion in honor of Dr. W. T. Grissom lately deceased. We want every member who knew the doctor to write a short sketch of his life, as he understood it, so that we can put these sketches together, and have a fitting memorial meeting. Dr. Grissom was a member of our society since its organization, and was always an active worker. U. L. Taylor, Program Com.

The Louisville Trust Company, one of the strongest financial institutions of Louisville, has complimented many of its friends and patrons with a beautiful Almanac for the current year. The front cover embossed and is therefore attractive, besides giving the zodiacal signs and all the information that accompanies the old time almanac, once regarded a most an essential for house-keeping, it speaks of the strength, safety and many conveniences that institution offers the public.

The recent fall of the mercury throughout the country brought much discomfort in many sections and was unusually cold for February, but in February 1899 that drop in the mercury made this one pale into insignificance. In Texas, that time, the Brazos river was froze to the extent that wagons and teams passed over it on ice and so far as we have heard was the coldest weather experienced in that particular section in the entire history of the South west.

Mr. John H. Chandler, who was a prominent citizen of Campbellsville, died Monday morning of last week. He was an uncle of Mrs. Rollin Hurt this place. He was 71 years old and was a victim of cancer of the stomach. For more than forty-five years he was one of Campbellsville's leading spirits in business affairs. He will be greatly missed from the daily walks of life.

As an evidence that Columbia is a quiet, law-abiding town, there has been but one serious difficulty in the corporate limits since the close of the civil war, forty-six years ago. The killing of Cy Watkins by Eli Bailey is the difficulty to which we refer, and that trouble was not brought about by the man who was forced to do the killing.

The meeting at Baptist church will close Wednesday night. During the services the Church was greatly revived, and there were ten additions to the congregation. Rev. Arvin delivered many entertaining discourses, and his social disposition endeared him to the people of this Church and the community.

The Sheriff of Russell county and some of his deputies were in Adair county last Thursday, summoning qualified jurors to appear at Jamestown at 9 o'clock Friday morning. The case of the State against Jo Zach Hays, of color, charged with murder, was to have been called at that hour.

Eld. John L. Brandt, who will conduct the Evangelistic services at the Christian Church.

We have in this office the first page of the first paper published in Columbia. The name of the paper was "Columbia Reporter" and it is dated September 10, 1825. It was published every Saturday by H. Miller and edited by Robert Bailey. The paper was sent to this office by a Mrs. McQueary, who lives in the eastern portion of the county.

In the afternoon of the first Saturday in April Russell Springs Lodge, I. O. O. F., will have a class of ten. An elaborate banquet will following in the evening. Remember that a series of meetings will commence at the Christian church second Sunday in this month. The pastor will be assisted by Eld. Brandt, a noted evangelist, and the song service will be conducted by the minister's son-in-law and daughter. Every body is cordially invited.

The road from here to Jamestown, either way were almost impassable last week. If the magistrates of Adair and Russell would go over the roads at this time, they would see tangible evidences why immediate steps should be taken to benefit the condition of the public highways.

The Columbia Graded School has recently installed electric bells in all of its class rooms which is a convenience but few institutions of this kind enjoy in this part of the state. Prof. A. H. Ballard, electrician superintended the installation and when a button is pressed six alarms are given.

Dr. J. B. Buchanan, a leading physician of Campbellsville, and six members of his family, including the colored cook, were poisoned last week by drinking milk from a cow the Doctor had taken on trial. It took heroic efforts to counteract the effects of the poison.

James Boys' Mother Drops Dead.

Oklahoma City, Ok., Feb., 12.—Mrs. Zerelda Samuels, mother of Frank and Jesse James, fell dead Friday afternoon in the state-room of a pullman on a north-bound Frisco train as it neared this city.

She was accompanied by Mrs. Frank James.

Mrs. Samuels had been to visit her son Frank, who is now a farmer, and was on her way to her home near Kearney, Mo.

The body was removed to an undertaking establishment here and was sent at night to the old James homestead.

She will be buried alongside the grave of Jesse James, who was killed by Bob Ford in St. Joseph Mo., in 1882.

Mrs. Samuels was 86 years old and considering the vicissitude of her life, she was exceptionally well preserved and was in fairly good possession of all her faculties. Heart disease is supposed to have caused her death.

A long distance-telephone message apprised Frank James of his mother's death and went to the old home direct from Fletcher.

It is expected that Hi George and all of the Western Missouri survivors of Quantrell's band will attend the funeral.

About twelve years ago when Frank James was a doorman at the Standard Theater, St. Louis, Mrs. Samuels visited him there.

Twice widowed, one of her husbands dying unexpectedly thousands of miles from home, the other dying in an insane asylum three years ago; two of her sons assassinated, her own arm being blown off by a bomb thrown by detectives in search of her sons, all of her other children either dead or married. Mrs. Samuels, at the age of 86, had been living at the old James farm near Kearney, Mo.

It was at this farm that Mrs. Samuels experienced the stirring incidents of the Civil War.

In one of the few interviews she ever granted, Mrs. Samuels told a Republic representative four years ago some of her unusual experiences:

Mrs. Samuels, who was nearly 6 feet tall and broad shouldered, while appearing courageous and determined, talked in low tones, and evidenced that she was reared amid refinement. She was educated at a convent in Lexington, Ky. Her maiden name was Zerelda Cole. Her grandfather was a soldier in the American Revolution, and her mother's name was Lindsay, of a famous Kentucky family.

Mrs. Samuels was first married in December, 1941 when she was 17 years old, to the Rev. Robert James, a Baptist minister. A few months later they moved from Kentucky to Clay county, Missouri. He bought the farm to which Mrs. Samuels returned four years ago after boarding several years in Kearney. It once comprised 800 acres, but she has sold or given to her children tracts of land, until now it consists of only seventy-six acres, upon which the house to which she went as a bride is located.

The Reverend Mr. James went to California as a forty-niner, to make money to educate his sons, Frank and Jesse, and his daughter, Susan. He lived only a few days after reaching

the Pacific Coast. His body was buried there.

Mrs. James was married to Doctor Samuels in 1855. He, too, was from Kentucky. Doctor Samuels attended school at New Liberty and was graduated from a Cincinnati medical college. He came west in 1850, and while practicing medicine at Greenville, Mo., met Mrs. Samuels. Excepting a period of the Civil War, when Doctor and Mrs. Samuels were compelled to remain away from Clay County, they lived near Kearney until he was sent to the asylum at St. Joseph.

Neighbors of Mrs. Samuels often related many instances of her daring while protecting her sons when they were being pursued by Federal troops at the time the James boys were in Quantrell's band of guerrillas and of similar acts when they were outlawed and were chased for years by detectives and Sheriff's posses.—St. Louis Republic.

Buffalo Hart, Ill.

Thinking perhaps some of my friends would like to hear from the North, I will drop a few lines to the News. I am not so far North however it is north of my old Kentucky home.

Well the weather is not fairing up very fast and we are having lots of mud. It takes four horses to pull an empty wagon and then have to keep the mud pushed out of the wheels to keep the wagon from sliding, although this is a good country to make money. The 1910 crops were fine corn made about 70 bushels per acre, oats 65 bushels and wheat 35 bushels per acre and clover seed 1½, and these old farmers pay good wages. I get thirty dollars per month, board and washing. One good thing here the farmers give a man plenty time to do a days work all the way from fourteen to sixteen hours a day.

A fellow hasn't any use for a bed here much, I have traded my bed for a lantern for I have more use for a lantern than I do for a bed, even in the spring of the years here the bugs carry their lanterns.

I noticed in the News some time ago about Mrs. Lizzie Burgess hogs strayed from McGaha, Ky., and heard of them passing through Mainsville, Ohio, I saw two hogs pass through Buffalo Hart, Ill., last week in the same mark, they looked like they were doing pretty well. I think they would weigh about 200 pounds each and was headed for the Chicago market.

I hear that Larkin Burton of near Purdy Ky., is still wearing his merry widow hat. I am sure if he was here he would be willing to change it for something warmer. He must have a good standing with his father-in-law, Hiram Cofer.

A Fierce Night Alarm

is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin, of Manchester, O., [R. R. No 2] for their four children were greatly subject to croup. "Sometimes in severe attacks," he wrote "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Asthma, Hay Fever, La Grippe, Whooping Cough, Hemorrhages fly before it. 50c and \$1 Trial bottle free. Sold by the Paull Drug Co.

Mrs. Millie Watson who has been on the sick list is better.

Haller Bault's health is still very poor.

Uncle James Humphrey's condition remains about the same.

Mrs. R. M. Jones has been quite poorly but is better.

The roads in this section are very bad, there has been so much rain and quite a lot of hauling on them.

Seeing that the correspondent from Pellham is advocating a bridge across Russell creek, we people out this way would like to put in a plea for a bridge across Casey's creek, which it seems is badly needed as could be as to large majority. It would be a great convenience as well as it seems a necessity.

Rev. Ben Henderson preached to a goodly number at Jerico school house the first Saturday night and Sunday in Feb., and announced that he would preach there again the first Saturday night and Sunday in March. Rev. W. S. Dudgeon preaches there on the 4th Sunday in each month.

Terrill Barnett died on Saturday Feb. 11th, at the home of his father, Pleas Barnett, who lives on White Oak Creek about three miles from this place. The burial was on Sunday at the Mt. Carmel Church yard. He was near 21 years of age and was a victim of lung trouble. He had been down a long while; he leaves an aged grand mother, father, mother, two sisters, and five brothers as well as a host of other relatives to mourn his loss.

J. S. Beard merchant at this place was in Louisville last week buying new goods.

Owen Hardesty stock trader passed through here with a drove of hogs last week.

W. R. Beard of this place who attends the L. W. T. S. was at home Saturday and Sunday.

S. H. Jones and W. A. Corbin made a trip to Campbellsville last week on business.

The correspondent from Holmes wishes to say to the one from Knifley who wrote the letter printed in the issue of the News dated February the 15th, that if he or she as the case may be, has nothing but untruths to palm off on the reading public, and try to make them believe they are dealing out news, that there is no reason why they should take as a target for their slurs and burlesques one who never knowingly offended them in any way. The paragraph referred to, is an assertion that certain parties were spending their leisure at S. H. Jones this bad weather, which was a falsehood, as one of the parties named had not been in the house in four weeks, and the other could not be said to be spending leisure there, as he is working there, and it is his home for the time, as he has a contract to make a

We have had a very good rain, we have season enough to plant corn and will plant soon. Most of the people are through putting up their land for crops. If we could just raise what we need to eat here like they do in old Kentucky we could get rich but it costs lots to live here, everything is high; we have to buy all of our

wood and it is from \$5 to \$6 per cord.

Most of the land here makes good cotton but we cannot eat cotton and it takes lots of it to buy what we live on but everybody has plenty to eat and wear but it takes most of the cotton to pay for it; when they do it takes about 14 months to make a cotton crop. We begin two months before christmas to put up our land and it takes till christmas to pick it out, we have about three weeks rest in August after we are through laying by our crops then we go to picking our cotton. It takes lots of hands to pick in the fall.

Celery.

Sow in February, March, or beginning of April, in rows in fine rich soil, and, if dry enough, press the soil firmly with a roller or the back of a spade. Keep the seed bed well watered, as Celery germinates very slowly. Transplant from June to August. Celery does best in a moist, mucky soil, and in situations where plenty of water is abundant in the soil. It can be planted in single or double rows, earthing up as it grows two or three times, and in doing this, care should be taken not to let the earth get into the heart of the plant. When severe cold weather comes, take up and transplant solidly in a bed close together, and cover gradually with leaves, hay or straw, as necessary to prevent freezing.

Missing All the Fun.

That Kentucky Colony in Florida, made up exclusively of Kentucky politicians of the Democratic faith, continues to grow. Col. W. B. Haldeman and Bruce Haldeman were the first to visit the land of the Everglades. They were soon followed by former Congressman, D. H. Smith, and he in turn was followed by Col. Harry A. Sommers. Sam J. Shackelford is packing his trunk and will leave shortly for the Sunny South, and Eli H. Brown, Jr., is thinking about making the trip himself.—Louisville Herald.

Free Dyspepsia Sample

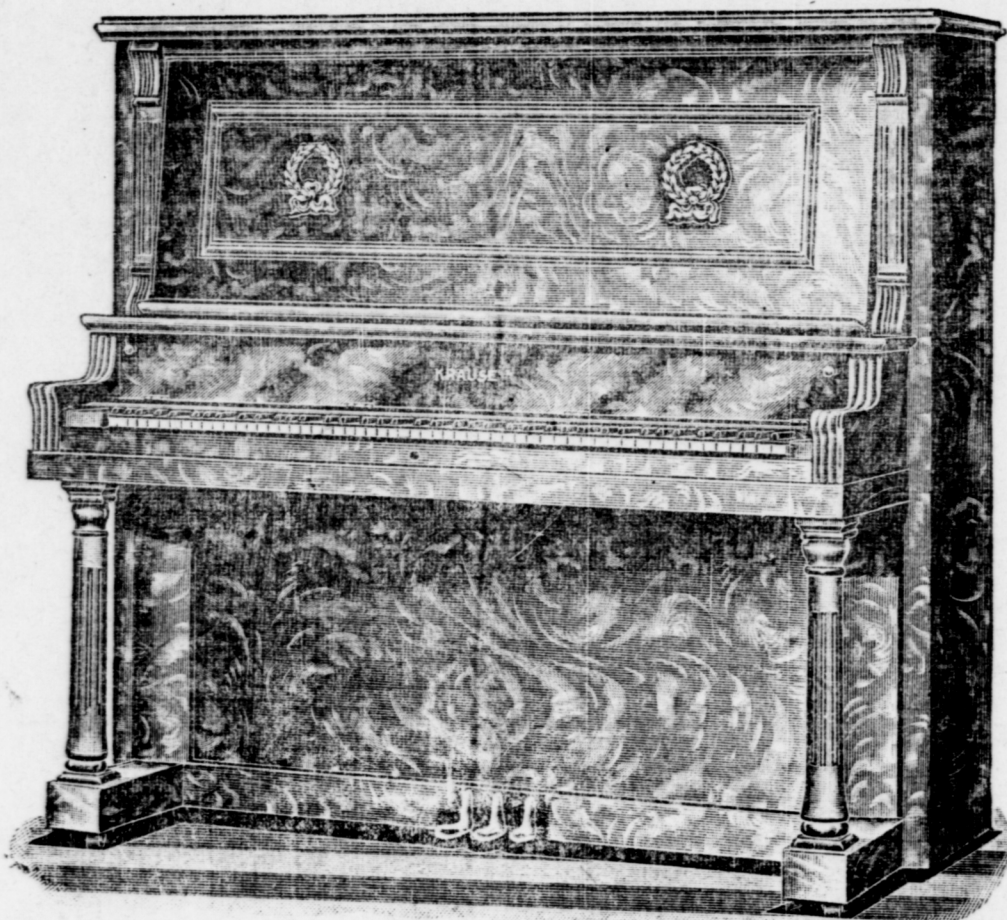

Sufferers from indigestion are wak-
ing up to the fact that pepper-
minut lozenges, charcoal and "dyspepsia
cures" are only makeshifts in the cure
of so troublesome a complaint as
chronic indigestion. What is required is
something that will not only relieve but
which will tone and train the digestive
apparatus to again do its work normally,
and this these simple remedies cannot do.

There is something more to the cure
of indigestion than sweetening the
breath, and yet a remedy that only con-
tains digestive ingredients will not cure
permanently, as the basis of indigestion
is poor bowel circulation, and that re-
quires a scientific laxative. We know
of no remedy that combines these re-
quirements better than Dr. Caldwell's
Syrup Pepsin, which has been sold for
a quarter of a century.

Dr. Caldwell's Syrup Pepsin is a laxa-
tive tonic, a scientific blending of nat-
ural ingredients for the cure of con-
stipation, indigestion, liver trouble, sour
stomach, sick headache and similar com-
plaints. Its ingredients will so strengthen
and tone the stomach and bowel muscles
that they will again do their work nat-
urally, and when that has been accom-
plished your trouble is over. Fannie
Stuart, Staunton, Va., was a long-time
sufferer, as was O. Tuck, Blackburn,
Mo., and they both found their cure
with this remedy. They became con-
vinced that pills and tablets, salts, "dys-
pepsia cures," etc., were at best only
temporary reliefs. They first accepted
Dr. Caldwell's offer of a free sample bot-
tle, which he willingly sends to anyone
who forwards name and address. Later,
having convinced themselves through the
free sample, they bought Syrup Pepsin
of their druggist at fifty cents and one
dollar a bottle.

Dr. Caldwell personally will be pleased
to give you any medical advice you may
desire for yourself or family pertaining to
the stomach, liver or bowels absolutely
free of charge. Explain your case in a
letter and he will reply to you in detail.
For the free sample simply send your
name and address on a postal card or
otherwise. For either request the doctor's
address is Dr. W. B. Caldwell, R. 500 Cald-
well building, Monticello, Ill.

CHAS. S. HARRIS EDITOR.

Democratic newspaper devoted to the interest of the City of Columbia and the people of Adair and adjacent counties.

Entered at the Columbia Post-office as second class mail matter.

WED. MARCH. 1, 1911.

Throughout the state, so far as we are able to judge from published reports, there is a feeling of unrest, and visible signs of disaffection within Democratic circles. It is not alone confined to those who seek office, but to the rank and file of the party as well. In the face of such conditions, and under the sting of an overwhelming defeat in our last state election, it does seem that better methods ought to be employed to bring strength and victory. If our party is to fulfill its great mission in this state, if it is worthy of public confidence and support, then it ought to be united, enthusiastic and outspoken on the vital issues that confront the well being of the people and their institutions. The unsettled conditions, the suspicions of unfair play between aspirants, and the tendency to grow weaker rather than stronger in the final contest seems to be charged to the course the Executive committee is pursuing. If that committee denies the party the right to meet in convention for the purpose of taking a position before the people of the state, if it seeks to advance the interest of personal friends against other Democratic aspirants, it is evidently paving the way to defeat. In last week's issue we called attention to the importance of a platform. We renew our plea, and feel that a failure to do so, will be as inexcusable as it will prove costly to the party, and to those who may be placed upon the ticket. We see no reason why the primary should not now be held as ordered, and there is not a single reason why the Democrats should be denied the privilege of meeting in convention for the specific purpose of making a platform. The candidates ought to be pledged, the faith of the party expressed, and that done before the Democrats cast their votes for any man. We need a clean cut platform with no dodgers attached, and we need a ticket made of men capable, and in full accord with public promises. With a clear declaration and a good ticket we can sweep the state with an old time majority. We are not divided on the issues. There is no dissatisfaction with Democratic principles. The only trouble is policy. Call a convention to meet before the date of closing entries for the primary, and new life, new enthusiasm will be added, and a great victory result next fall. Failure to do so, may prove extremely costly.

Dr. Harry Sanders, of Campbellsville, was nominated by the Democrats for the State Senate last Saturday. The district is composed of Taylor, Marion and Washington counties. It was Taylor's time, and the other two counties took no part in the primary. Hon. J. H. Wade contend-

ed with Dr. Sanders, and was defeated by about 200 votes.

A few days ago Mrs. Frances Esper, who was 108 years old, said to be the oldest woman in Colorado, died in the arms of her one hundred and eleven year old husband. She died from burns received when her clothing caught fire from a grate. Mr. and Mrs. Esper had been married ninety-one years.

Hon. W. O. Head, Mayor of Louisville, has withdrawn from the race for the Democratic nomination for Governor. At this time there are only two candidates for Governor before the people, Hon. Jas. B. McCreary and Wm. Adams.

Gen W. T. Cabell, a former Commander, of the trans-Mississippi Department of the United Confederate Veterans, died at Dallas, Texas, last week. There are but few ex-Confederate Generals now living.

Senator L. Ormer played the sympathy racket in a four hours speech in defense of himself. Senator Beveridge replied, taking the bark off, his utterances being scathing and to the point.

An extra session of congress has been agreed on, and the session will likely begin the 15th of this month.

STAR FIELD FENCE

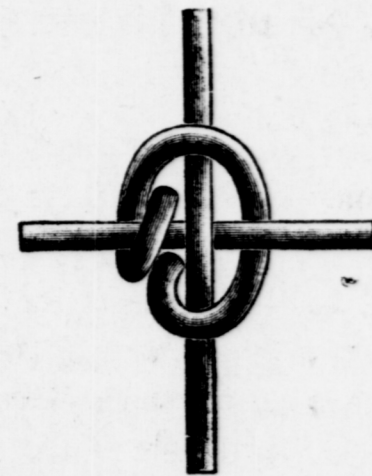

We feel that we were very fortunate in securing the Agency for the STAR FIELD FENCE for Adair County, because it is guaranteed to be one of the very best Woven Wire Fences made.

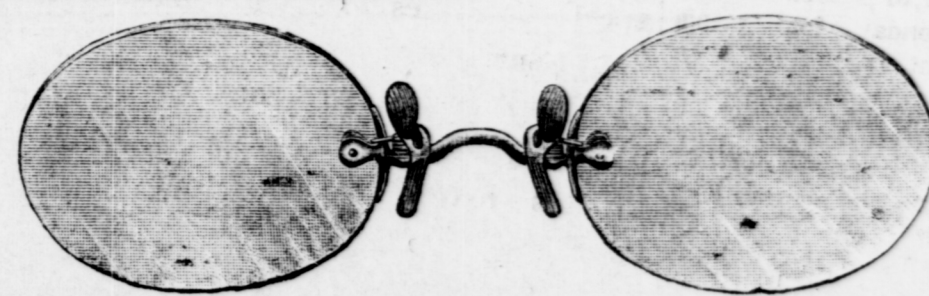

The STAR FENCE is made of the BEST GALVANIZED BESSEMER HARD SPRING STEEL CRIMPED WIRE. The horizontal wires are crimped every three inches, thus positively providing for expansion and Contraction. It is so constructed the stay wires can not slip, yet at same time allowance is made for erecting on uneven ground, so an inexperienced person can erect this fence perfectly. All horizontal wires are of even length, so it requires but a short time to erect the STAR Fence.

If you expect to do any fencing this spring, and want a fence of quality, it will pay you to examine the STAR FENCE before you buy. Prices are right. Investigate this Fence at once.

Eloped With Wife's Sister.

Chief of Police, Wm. Yowell, Sunday arrested O. L. Wilson and Miss Lissie Hall who were on the afternoon passenger train enroute to Louisville and lodged them in jail. The arrest was made on request of the Sheriff of Casey county, who arrived Monday and conveyed the prisoners to Liberty.

The Sheriff stated that the young lady was 17 years of age and a daughter of A. G. Hall, a prominent farmer of Casey county, and that she was eloping with her brother-in-law who had deserted his wife and two small

children. Wilson appeared to be about thirty years of age. When searched at the jail here, Wilson had \$137 in money and a pistol. The Sheriff stated that feeling in Casey was intense and that he feared trouble when he returned with the prisoner. Mr. Yowell received a reward of \$25 for making the arrest.—Marion Falcon.

Eclipses of the Sun.

During the present year 1911, there will be two eclipses both of the sun. It is perhaps not too early to announce the first of these which occurs April 28 and will be total. This April eclipse will be visible in the United States with the exception of the far north as a line drawn through the cities of Philadelphia Milwaukee Butte Mont., and Portland, Oregon. Visible in Mexico and Central America, the path of totality will extend from Auckland Australia across the Pacific ocean. At Richmond Va., and at New Orleans La., the phenomenon will occur either in part or wholly after sunset, but Harrodsburg is more fortunate. Here is the scheduled to begin at 5:30 in the afternoon and last just one hour. The other eclipses of the sun for 1911 falls October 22 and will be invisible to the United States.—Harrodsburg Herald.

A Word for the Langshan.

They are the very best of winter layers, laying large brown eggs while the thin feathered birds are nursing frosted combs or shivering in the fence corners. They are good table fowls. Their flesh approaching nearer turkey in flavor than any other fowl. They respond readily to good treatment, but will stand a great deal of rough treatment. For this reason they are an ideal farmers' fowl. They are very gentle mothers; can set them anywhere and they will set, or move them from one place to another. They are good foragers, but bear confinement well.—Mrs. T. W. Eckles, Adams co. Ill.

The Roundup.

The loudest talking always dies the quickest.

A woman doesn't mind being fooled when she does it herself.

The quickest way to convince a girl that you have good taste is to tell her she is good looking.

A woman gets as excited over a wedding in the neighborhood as a man does over baseball game.

As soon as a girl gets married she gets busy and tries to get some other girl into the same kind of trouble.

A Frenchman used a large stone jar for a pillow, explaining that it was not hard because he stuffed it full of hay.

Scientists are demonstrating that nearly 50 per cent. of our bodily ills are caused by mental worries hysteria.

A simple test for purity of sugar is to burn it. If pure, fire entirely consume it; if adulterated, it will leave an ash.

Since the clothing men have grown simpler and simpler, and find the cause of evolution has taken away from the picturesqueness of the crowd, it has added to the dignity of the man.—Men's Wear.

All sorts of odd jobs are in order now; and get the whitewash brush ready to flop.

Sow clover seed twice to be sure it will take, and don't forget the alsike along with the red.

Frost, and digging post-holes do not go together very well; but as soon as the earth does soften up, you will have the very best time of all the year to get ready for the fence. It isn't nearly such hard work then as it is later when the earth is as dry and as hard as a bone.

To renew worn meadow without plowing it, give it a thorough harrowing so that the carpet of sod is well torn to bits, then top dress heavily, sow grass seed, and harrow and brush it smooth.

A Saving Clause.

Justice McKenna and Justice Lurton of the Supreme Court of the United States were riding home from the capitol when Senator McCumber of North Dakota joined them. They gave him a place in the car between them, and the conversation turned to tariff. Senator McCumber believes that the tariff should be revised upon the difference in the cost of production at home and abroad. With a fair profit added.

"Senator," said Justice McKenna, seriously, "I have been spending the summer in the country. What is the cost of production of an egg?"

Senator McCumber is a stand-pat statesman, especially on farm products. He thought a moment.

"That, Mr. Justice," he answered, gravely, "depends, I should say, upon the wear and tear on the hen."

Attacks School Principal.

A severe attack on school principal, Chas. B. Allen, of Sylvania, Ga., is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands bless them for curing stomach trouble, female complaints, kidney disorders, biliousness, and for new health and vigor. Try them. Only 50c at Paull Drug Co.

A Splendid Opportunity.

The subscription price of the Daily Courier-Journal, the greatest newspaper in the South, is \$6 per year or \$4 for eight months. We can send you the Courier-Journal for eight months and the News for one year both for \$2.50. This is \$1.50 less than you would have to pay for the Courier-Journal alone. If you only want the C. J. for four months with the News for one year you can get them both for \$1.75. This offer is for a very limited time, and should be accepted at once. If you are already a subscriber to the News renew at once. If you are not a subscriber now is the time to subscribe and get the great Courier-Journal with it.

This proposition is only extended to parties living outside of the corporate limits of Columbia. The C. J. does this in order to protect the local agent.

As there has been talk of building a bridge across Russell creek at the Burk ford, will say that everybody in this neighborhood is for it. If there is a bridge needed in Adair county it is at the Burk ford. The people in the Pellham neighborhood have been water bound nearly all winter and there have been several narrow escapes from being drowned at that ford. The burk and mill ford are both dangerous even when the creek is low, so lets have a bridge at the Burk ford.

Obituary.

Mrs. Jennie McClister, wife of Herschel B. McClister, after a protracted illness, borne with Christian patience and fortitude died at her home near Fairplay Feb. 3 1911 The cause of her death was consumption. All was done for her that loving hands could do but God saw it best to take her away and we bow in humble submission to Him who doeth all things well.

She was born June 1. 1877 was the oldest daughter of Mr. and Mrs. Crawford Loy who preceded her to the home above. She professed faith in Christ early in life and united with the M. E. Church South of which church she was a consistent member until her death.

It can be truly said of her that the world was made better because she lived in it. In her home she was a model wife, a true mother, and a neighbor in whom all had the utmost faith. We can not better express the beauty of her life than to use the words of her father who on his death bed had called his children around him to give them a father's last council he said, "Jennie continue to live as you have lived."

The day of her death she called her friends and loved ones to her bed side and after assuring them of her willingness and readiness to go she said, I am going home today, and toward the close of the day she fell asleep in that peace which the world can not give or take away.

She is survived by a husband and four children a brother and sister many relatives and friends who deeply feel the loss of one so dear.

But why do we mourn departed friends Or quake at death's alarms? 'Tis but the voice that Jesus sends, To call them to his arms.

May all the surviving members of the family be prepared to meet the departed one in that divinely prepared place.

Funeral services were conducted by Rev G. R. Abrel assisted by Rev. J. F. Roach after which the remains were laid to rest in the McClister burying ground.

A precious one from us has gone,
A voice we loved is still;
A place is vacant in our home,
Which time can never fill.

Yet again, we hope to meet dear Jennie

When the spark of life has fled,
And in heaven with joy to greet her,
Where no farewell tears are shed.
A Cousin.

Editor News:-

Being as I see no news from this part of the world, I thought it would be possible for me to scribble a few lines to your most valuable paper, which is a most welcome visitor to our home, coming as it does on Thursday of each week, each one clamors for it to read of the people of our old home state.

We are having a very mild winter here this time, there has been only three little snows this winter, about enough to track a rabbit.

Wheat looks well, of which there was a very large acreage put out last fall.

I notice in the News of the stork visiting Mr. Frank Shepherd's and I also read a letter written by Melvin White, one of my old friends. I am glad to know that Mr. White is sailing in the airplane of prosperity.

Today is the 17th, and I am sitting by the telephone waiting for Mr. Arvin Turner to call me to meet him at the station. I suppose he will call me as he told me in a letter that he would be here today.

Say Mr. C. M. Pollard, why is it that you dont speak once through the columns of your home paper and let us Northern people know that you are still treading the rolling waves of old Russell's Creek. Hello! Col. H. A. Todd, how are you? fine and dandy, I hope.

Mr. J. P. Handy has located near Bradfordton, Ill. A young man bearing the name of Harry Stinson came to Illinois and contracted a bad case of homesickness and took the next train and pulled his freight for old Ky.,

Mrs. G. P. Handy has been quite sick with lagrippe but is better at this writing.

Well Springfield had the honor of entertaining President Taft, Saturday the 11th, of this month. There were about 5,000 people that cheered him. I could not see why they cannot go along and not make a fool of themselves, but it was funny to see the people climbing telephone poles and upon the roofs of houses just to get a glimpse of one that was nothing more than man.

A Live Issue.

A Missouri candidate used as his principal campaign argument a blotter, on one side of which was printed a picture of his nine children, who constituted, so the caption read, nine reasons why he should be elected. The argument prevailed. Two additional reasons arrived last week, and it is reasonably safe to predict that their author will be a candidate for re-election.

We must not forget to make mention through the News that one of our blacksmiths, Mr. Wesley Parsons, who formed a partnership some time ago with horse swapping in his business made a success of it. During the dull days Mr. Parsons is noticed on Jockey street with a good plug ready to accommodate any one that may come his way and so far has been very successful.

The only up-to-date man of our section that knows a good thing when it comes in sight is W. L.

Grady, who took due notice of the occasion and tapped several of his nice maples in his grove and the water came in abundance and we must say here that Mr. and Mrs. Grady are now the recipients of several gallons of nice syrup, the only syrup that cannot be surpassed.

We are glad to note that the good people of our town have re-organized their prayer services that will meet every Wednesday night, with two extra good Sunday Schools with good attendance in connection with it. Does seem that everybody should be on gaining ground spiritually.

It is evident that there will be a rather large acreage of corn planted in this section this year.

We have here in the Glensfork valley some of the best soil in southern Kentucky and where the soil failed to bring forth a bounteous harvest you may put it down that it has not been properly tickled.

We are very much in sympathy with our friends in the Neatsville section who are struggling to obtain funds to build a bridge at that point. If they can raise a substantial sum in that neighborhood and among those who would be most benefitted by the bridge we know of no reason why our fiscal court should not put up the remainder. We often see people here who are uncharitable enough to protest against taxes to build bridges on the other side of the county. We ought to thank God that we are not surrounded by dangerous unfordable streams. At few years ago there was no man among us to protest against the \$5,000 the county was proposing to put into a turnpike for us. It is the same old tale of moss backs kicking on the public improvements.
